4th Station : 17 May 2008 - Penang Hospital

Session in Penang Hospital went on smoothly, with assistance and coordination from doctors and nurses, and also our experiences learned from the previous 3 workshops.

Although we had only a few hours spent together, every participant was enjoying the session.

Doctors hope that we are able to conduct such workshop at least once a year in Hospital Penang.

Perhaps, our first meeting may be a nervous encounter; however after meeting us, we are looking forward to putting more smiles on your faces.

Believe us, we are going to meet you again!

Maximize SUPPORT

A newsletter for people living with blood cancer and GIST

Brought to you by

The Max Foundation
Serving the worldwide leukemia community

Maximize Life Workshop 2008
Because Of You,
We Made It Happen!

WELCOME

We would like to welcome you to the first edition of Maximize Support. This newsletter aims to encourage patient and caregiver support, education, and empowerment. We hope to make sure that all patients know about our meetings, and expand our reach to patients who may not be able to attend.

This newsletter is possible by a partnership between The Max Foundation and Max Family.
