

Before Test

Questions to ask your physician before your PCR test:

1. What is PCR and what does it measure in CML?
2. Why should I know my PCR level?
3. What is the ideal PCR level?
4. What can affect my PCR level?
5. How often should my PCR level be tested?

After Test

Questions to ask your physician after your PCR test:

1. What is my PCR level?
2. Has it gone up or down since the last test?
3. If up, should I be concerned that my treatment is not working?
4. If down, how far down? Have I reached a major molecular response (MMR)?
